

BAY LAW

Injury Attorneys

Promotional Strategy by: Myra Acosta, Aaron Anaya,
Kris Huang, Mia Mota, Helena Rawlings, Julian Leon

Executive Summary

- Bay Law Injury Attorneys is a family-run accident and injury attorney office that's based in Henderson, Nevada and serves the Henderson, Las Vegas, and North Las Vegas areas.
- They handle a variety of cases ranging from car accidents, slip and falls, and wrongful deaths to dog bites, brain injuries, and construction accidents.
- Their motto is "Winning is No Accident".
- According to Google Reviews, 179 out of 180 of their reviews are 5-stars. Their reputation is positive overall.
- Bay Law doesn't seem to have a TV commercial, nor do they garner much attention on social media.
- Main recommendations for their promotional strategy is a television commercial that can also be shared on social media and social media posts that help promote their business.
- Creating and utilizing commercials that become iconic and showcases their important traits such as dedication to helping their clients and share them on social media platforms while creating interesting snippets on said platforms can extend their reach and gain more clients.

Situation Analysis

- Bay Law is one of many accident attorney agencies that operate in Las Vegas Valley. Their office is located in Henderson. Their office also serves the Las Vegas and North Las Vegas areas.
- Their competitors include the likes of Lloyd Baker Injury Attorneys, Lerner and Rowe Injury Attorneys, and Morgan & Morgan, who also operate in the same general area.
- Many accident attorney firms are based in Las Vegas Valley due to the high accident and injury rates from heavy traffic, high tourism rates, and near-endless activity. The large number of firms results in fierce competition.

SWOT Analysis

Strengths

- Covers a variety of accident and injury types. Versatile.
- High compassion. Reassures clients that Bay Law can be depended on.
- Experienced in the fields they practice and committed to helping their clients no matter the challenge.
- They offer tips and examples on social media, most notably Instagram, that can help clients.

Opportunities

- High demand for accident attorneys due to high accident rates in the area.
- Can take advantage of positive reputation to attract clients
- Potential to expand their business to other locations, increasing area of influence and getting more people to be aware of them.

Weaknesses

- They don't have a TV and/or social media advertisement that describes themselves. As a result, few people know about them.
- Weak social media presence. Few posts and very few followers.
- Limited area of operations. They only serve Henderson, Las Vegas, and North Las Vegas while their some of their competitors serve multiple areas in multiple states.

Threats

- The numerous other injury attorney firms operating within the same general area, especially those that operate in a larger area.
- Competitors that have greater influence such as advertisements and stronger social media presence.

Target Market Analysis

Demographic Data:

- The data collected suggests that the population in which Bay Law is located is primarily middle aged, predominantly White, generally well educated, with other demographic characteristics being relatively evenly distributed.
- We can assume the target market for this firm is people seeking an injury attorney which are better understood when put into groups:
 - Dog or Animal Bites: children.
 - Motor Vehicle accidents: younger to middle-aged adults.
 - Falls: elderly adults

Psychographic Data:

- Values: empathy, trustworthiness, wisdom.
- Attitudes: anxiety, helplessness, frustration.
- Personality Traits: resilient, sensitive, cautious.

"Dealing with a personal injury case could be a nightmare but Deniz and the Bay Law team made it stress free. They provided excellent and responsive communication and updated me every step of the way. They were also caring and on top of all my medical treatment."

GEMMA

Google Review

Target Market Analysis

Behavioral Data:

- Henderson is a 20 minute drive from The Strip in Las Vegas.
- Clark County which Henderson resides in has the largest number of fatal crashes and fatalities for the state of Nevada.
- 53% of all traffic fatalities in Nevada are caused by impaired driving.
- These statistics show a pattern of reckless and careless behavior that is often associated with a region known for its partying lifestyle.

How Clients Make Purchase Decision:

- Proven track record of success.
 - Settlement amounts.
 - Testimonials.
 - Online Reviews.
- Large knowledge base.
 - Able to negotiate and secure fair financial compensation.
- Professional throughout whole process.
 - Accessible
 - Responsive
 - Communicative
 - Detail-oriented

Budget Overview (2-Year Plan)

Why TV?

- Las Vegas has high accident rates and heavy tourism → lots of PL advertising.
- Competitors like Jacob Emrani and Morgan & Morgan already rely on TV.
- Bay Law has strong reviews but not much exposure → TV can fix that

Total Recommended Budget: ~ \$160,000 (24 months)

Breakdown:

- \$18,000: TV commercial production
- \$90,000: Local TV ad placements
- \$18,000: Social media and YouTube video ads
- \$14,000: Google local service ads (LSA)
- \$6,500: Call tracking and analytics

Total: \$160,000

The goal: To build awareness, then drive calls, convert those calls into leads, then ultimately increase the injury case load.

How The Strategy Works

Step 1: Produce the commercial

- Emotional, trustworthy, family-owned message.
- Show outcomes of real cases and the value provided.
- Format for social media (IG reels, FB, YT shorts)

Step 2: Run TV ads constantly

- Air on local channels (Fox 5, 8 News Now, KTNV)
- Target courtroom shows, the news, and evening slots.
- Keep Bay Law at the top of peoples minds when accidents happen.

Step 3: Support with digital ads

- YouTube, Facebook, and Instagram retargeting.
- Show the commercial again to the viewers that saw it on TV.
- Stay on the customers mind until they need a lawyer.

Step 4: Use Google Local Service Ads

- Show up first when “injury lawyer near me” is searched.
- Pay only when someone calls.

Step 5: Track Everything

- Use unique phone numbers for TV, YouTube, and Google.
- See exactly which ads bring in clients.

Expected Results and ROI

Industry Benchmarks (PL Firms)

- Lead Cost: \$150-\$350 each.
- Case Cost (CAC): \$1,200-\$3,500
- Settlement Range: \$8,000-\$25,000
- Attorney Fee: ~33% (\$2,600-\$8,000 per case).

If Bay Law gets around 500-750 leads → 50-100 clients...

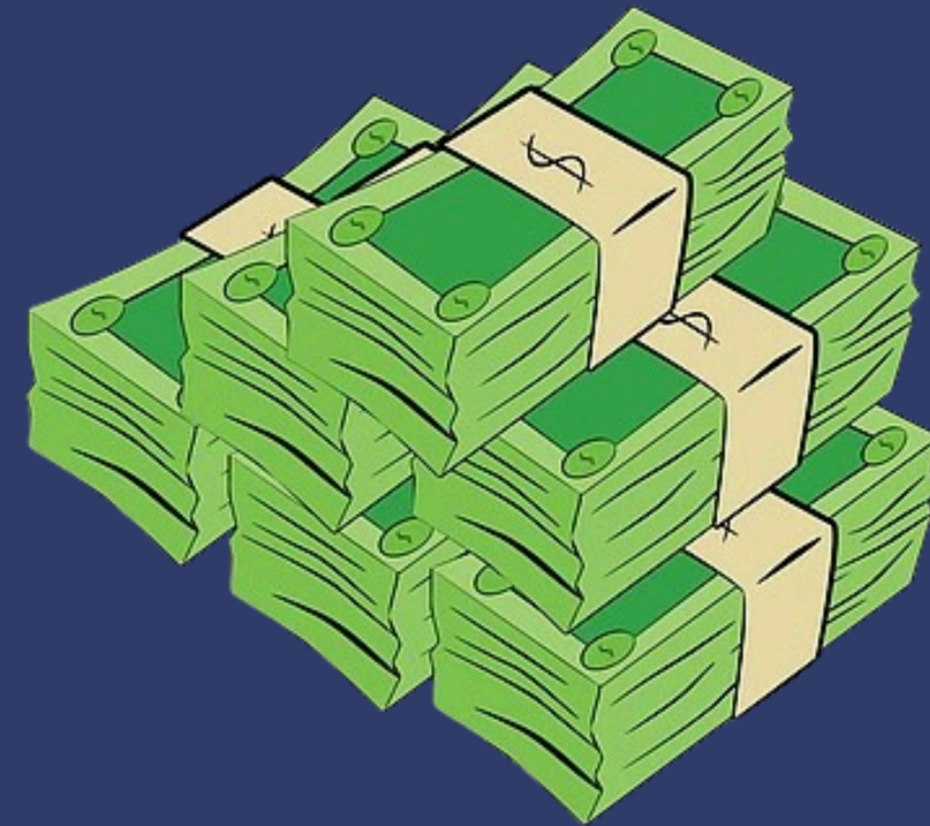

Projected revenue:

- 50 clients → ~ \$200,000 (this covers campaign cost)
- 75 clients → ~ \$360,000
- 1000 clients → ~ \$500,000+

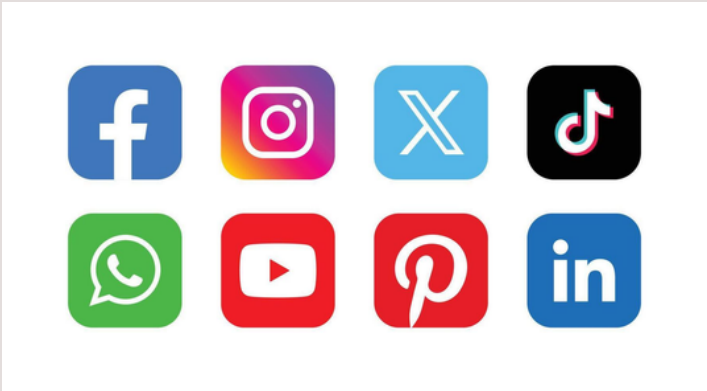

ROI Range:

- 25% to upwards of 200% depending on the amount of cases.

The bottom line is that this plan boosts Bay Law's visibility, which fixes their lack of advertising, and has a very high chance of paying for itself. Especially in a place like Vegas that has a lot of accidents

Our Strategies

Strategy 1

Increase Bay Law's Social Media and TV Presence

Strategy 2

Pop-up Events

Strategy 3

National Impaired Driving Prevention Month Campaign

Our Strategies

1. Increase Bay Law's Social Media/TV Presence

Create a TikTok and YouTube account with introduction videos to reach younger generations with this humorous content. It would also help to add bilingual content in their social media. Bay Law should also make a TV commercial emphasizing their motto “Winning is no Accident” and testimonials.

2. Pop-Up Events

Host informational booths at local events such as college career fairs and community safety events. These events will allow Bay Law to showcase their empathy, answer legal questions, and directly connect with residents.

3. National Impaired Driving Prevention Month Campaign

Bay Law should sponsor a December National Impaired Driving Prevention Month campaign. Our behavioral data shows that 53% of Nevada's traffic fatalities involve impaired driving. This event will help raise awareness to that statistic. This event will include awareness posts, educational videos led by Bay Law's top attorneys, and have partnerships with local organizations who promote responsible driving. It will show Bay Law is concerned for the community and wants to create solutions on any impaired driving accidents.

Evaluation and Metrics

- The effectiveness of Bay Law's promotional strategy will be measured using key performance indicators.
- Customer Acquisition Cost (CAC) will be monitored to determine how efficiently new clients are gained in relation to marketing spending.
- Conversion rates from phone calls, website inquiries, and social media messages will show how well the new promotional content builds trust with potential clients.
- Engagement metrics, including likes, comments, shares, follower growth, and video completion rates, will indicate how strongly the firm's digital content resonates with the Henderson community.

Indicators of Success

- Website analytics such as total traffic, time on site, and landing page conversions will reveal whether the TV commercial and online videos drive potential clients to learn more about the firm.
- Growth in direct searches for Bay Law, increases in Google reviews, and clients reporting that they found the firm through new advertisements will reflect rising brand awareness.
- Return on Advertising Spend (ROAS) will show whether revenue from new cases outweighs advertising costs.
- The strategy will be considered successful if Bay Law sees higher engagement, more consultation requests, improved conversion rates, lower CAC, and stronger overall visibility in the Henderson area.

Thank You!
